A little about St. Paul School

Saint Paul School strives to create a community based on sound Christian principles. The School works to build an environment whose foundations include the Mercy Core Values: respect, integrity, justice, compassion and service.

We understand that parents are the first teachers of their children, and we at Saint Paul School partner with you in your child's education.

Education extends beyond the classroom. We build a community that becomes a partnership between home and school.

In building this community, we expect positive speech, acceptance of personal responsibility, respectful interactions, and open communication that best serves all students and helps them become the people that God intends them to be.

When we interact with each other within the guidelines of the Mercy core values then we recognize that together we can live the words that Jesus taught us:

“I have given you a model to follow, so that as I have done for you, you should also do.”

-John 13:15

Mission Statement

Saint Paul School is a Catholic elementary school established in 1870 that creates lifelong learners by educating the whole child first and foremost through the teachings of Christ as handed down through the Apostles. We are committed to academic excellence in a safe, respectful learning environment where students develop their God-given gifts and learn how to apply them. We offer our students a uniquely Catholic and strong academic foundation where they learn 21st century skills in order to become generous, compassionate contributors to the world.
